Acne and breakouts

Lye Lee Chien

MK13 is definitely very effective against acne in teenagers who are beginning puberty and starting to break out. My friend's child had just reached puberty and developed pimples. After spraying MK13, the pimples really subsided the next day.

Lee Hui Kian

My child's sensitive skin and acne have improved a lot. I also sprayed it when I had a toothache, and it provided relief.

Alice Alice

Last month I received a gift box from Klik Asia containing several products, including MK13. My daughter had many pimples on her face, so I let her try it. After three days, the pimples began to subside. It really helped her. Highly recommended, and thank you!

Shiueh Lian Wong

MK13 is good too. My son's facial pimples and acne marks are gradually decreasing. The marks are less severe, and the pimples are slowly drying up. He still occasionally gets one or two pimples, but it is not as bad as before.

Candice Chan

MK13 is very effective. My daughter's acne-prone skin has improved a lot, and her acne scars have lightened.

Eileen Tang

I just joined and saw my favorite, MK13. It really works well. My son used it for three days, and his inflamed, pus-filled pimples flattened. He has not developed new pimples since. After using it myself for a week, my sagging facial skin began to lift and firm up. I sincerely recommend it.

Acne and breakouts

Boey Hoon

My son's large and small pimples disappeared after three months of using MK13. He now sprays it diligently.

Nie Yenn

I saw MK13 on a livestream and heard that it could clear acne, restore skin cells and make the skin look younger. My skin was in very bad condition, so I decided to buy it and try it. After a few months, my skin became smooth and soft, and I had fewer pimples. I am very grateful.

Nie Yenn

My skin is oily and acne-prone, and I kept breaking out. Other products did not help and even made things worse because they irritated my skin. Since using MK13, I have kept spraying it and applying it as a mask. My face has gradually improved, without irritation.

Lin Huiqing

My skin is very sensitive, so there are many products I cannot use. MK13 has noticeably improved my facial acne and sensitivity. I now carry it wherever I go.

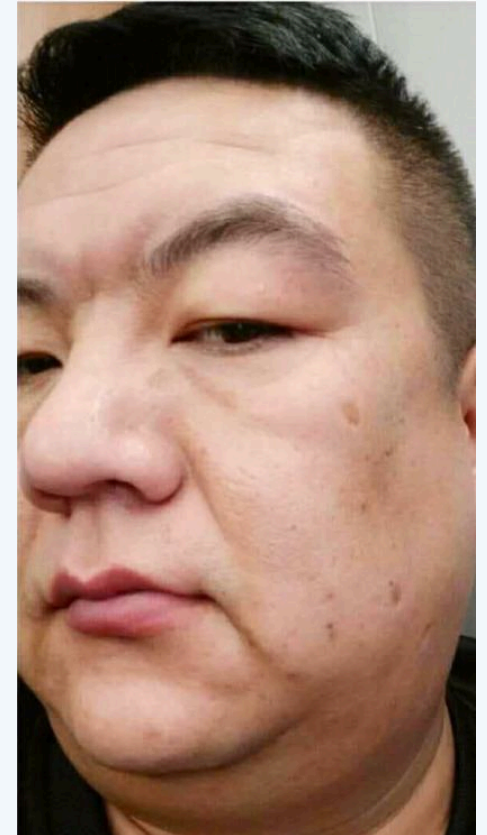

Dark spots and uneven skin tone

Before: dark spots and pitted skin were more noticeable.

After: pitted skin repaired and dark spots faded.

Comparison after 3½ months

Dark spots and uneven skin tone

Before

After 1 week

Yuan Fen Yeoh

I had used many products and spent a lot of money on my facial dark spots without any improvement. Using MK changed my outlook on life. After two months, my face feels fair and smooth, without being sticky or greasy. It is also very convenient: MK13 is the only product in my skincare routine. I really recommend it to everyone.

Dark spots and uneven skin tone

Wong Khin Ling

After using MK13 for a while, my freckles have become much lighter. MK20 has also improved my dry eyes. Headlights no longer irritate my eyes when I drive at night, my vision is clearer, and my floaters are less noticeable.

Angel Lee

After just one week, the spots on my husband's face have started to lighten. Amazing!

Kooi Khim Lim

MK13 has made my skin much better and my spots lighter. Even my husband noticed. I am so happy. Thank you!

Jac Ho • recommends SSKO

I had a facial yesterday, and the beautician said my skin was brighter and my blemishes lighter. I started on October 31 and saw changes after two weeks, without even applying it as a mask. Thank you, Sisko. Highly recommended!

Zoe Tan • 012-602xxx0

My dark spots faded quickly, especially when I applied a mask every day for faster results. My skin is no longer dry, I have fewer wrinkles, and I look younger.

Dark spots and uneven skin tone

Jessica Low

MK13 is amazing. At first, I doubted it because it seemed to be just water, but my freckles have improved a lot. It is also very hydrating. Great!

Lily Yong

My husband's face was covered in age spots. Most of them disappeared after three months of use.

May Loo

After two months, my freckles are lighter and my face is brighter. Thank you, Teacher, for MK13.

Sau Mui Yap

When I bought MK13, my daughter said, "Mum, don't be fooled by Fuzhou Mei. She says everything is great." I ignored her, bought it and sprayed it. My spots faded, and now my daughter says my face looks brighter.

Sau Mui Yap

My wrinkles, smile lines, eye bags and dark spots have faded. My granddaughter bumped her head and it bled a little. After I sprayed MK13, the bleeding stopped and it no longer hurt.

Dark spots and uneven skin tone

Loo Loo

I had enlarged pores and pigmentation, and no other products worked. After about half a year of MK13, my face is very smooth and bright. It resolved problems I had had for years. Thank you, Teacher.

Jamie Choong

I started using MK13 last year for wrinkles, pigmentation and dry skin. These problems were resolved after using it. Many products I tried before did not help and made my skin even drier. Thank you to Dr. Chan and the research group.

Celest Tan

At first I could not believe that something like water could work. My long-standing pigmentation has faded, and I no longer need makeup. Natural beauty! I am happy and save time and money because I no longer need so many skincare products.

Christina Lim

Since using MK13 and MK20, I have stopped buying beauty-salon packages. My facial spots have improved, and my skin looks brighter and more radiant. MK20 has improved the itchy, watery eyes and red veins that troubled me for years. I diligently spray my eyes 20 times a day and use MK13 eight times a day. All the MK products are great. Thank you, Teacher.

Dark spots and uneven skin tone

Ling Zhen

When I first bought it, I was skeptical: it was only water. My face started peeling when I first used it. I asked Teacher Winston, who told me to keep using it. The result really surprised me: my whole face became fairer, smoother and very radiant.

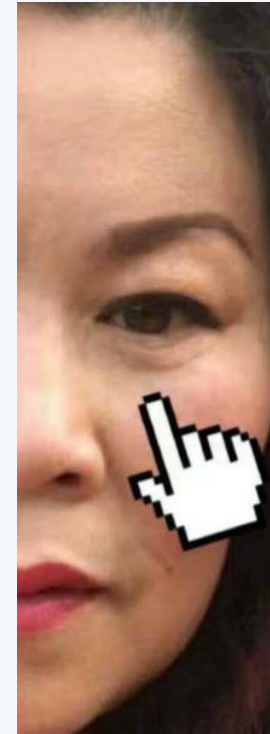

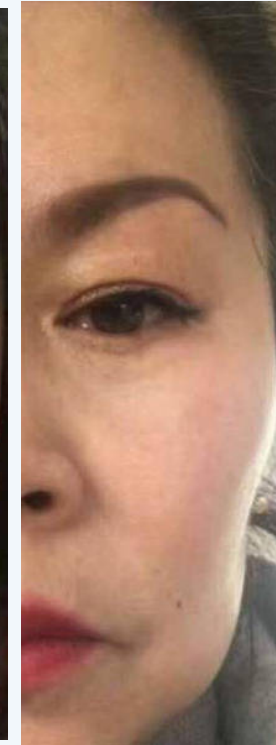

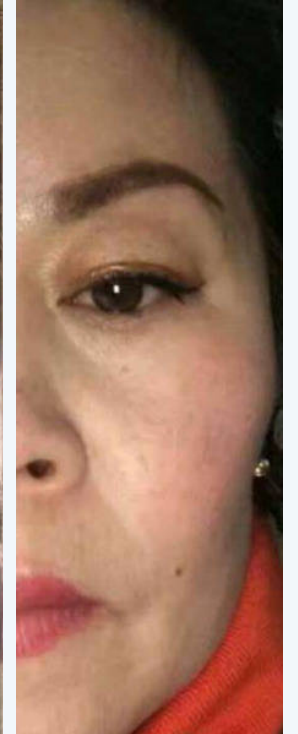

ShokYi Loh

MK13 can help our skin detoxify, repair, rebuild and restore itself. Since using it, I feel that my face is brighter and lifted, and my dark spots have faded. When my throat feels uncomfortable, I spray it too. After a few applications, my throat feels much better. I am grateful for such a good product and grateful to Hoiyoyo for introducing it to us.

Yuan Fen Yeoh

I had used many products and spent a lot of money on my facial dark spots without any improvement. Using MK changed my outlook on life. After two months, my face feels fair and smooth, without being sticky or greasy. It is also very convenient: MK13 is the only product in my skincare routine. I really recommend it to everyone.

Reducing wrinkles and smile lines

**Before****After****Before****After****Before****1 week later****20 days later**

Reducing wrinkles and smile lines

Weng Hoong Low

My mother is 64 and had many crow's feet and smile lines. Since she started using MK13, her facial wrinkles have disappeared. She is very happy, and so am I.

Wong Khin Ling

I have used MK13 and MK20 since SHL's first broadcast. MK13 has left my 63-year-old face free of wrinkles, with smaller pores and a more even skin tone. I like that it protects against the sun and cold. One bottle does it all. MK20 has improved my astigmatism; I can drive at night without problems, and my dry eyes have also disappeared.

Sau Mui Yap

I only applied a mask yesterday, and today I can already see that my smile lines are shallower. Whenever I watched Fuzhou Mei apply masks, she said how good they were. Now I have experienced it myself: it really is good. I only left it on for 20 minutes, though. Today I heard Teacher Yang say it can be left on for an hour.

Yukki Yeong

I used to be skeptical about MK13; now I love it. After three weeks, my whole face has improved: fewer wrinkles, smaller pores and fairer, brighter skin. Thank you, SMART HOME LIFE, and thank you, Teacher MK.

Reducing wrinkles and smile lines

Saiyong Mika Yeo

Yes, I carry it with me now. My pores really are finer and smaller, and my wrinkles are finer too. The lower lashes at the corners of my eyes had all fallen out, but they are slowly growing back. The dark parts of my eyes look much brighter. I sincerely recommend MK13 and MK20.

May Loo

I really recommend MK13. My face is sensitive, very dry and prone to redness. Since using MK13, it is no longer red and I do not break out. My spots have also faded and my wrinkles have noticeably decreased. I really recommend it.

Jess Lim

After more than four months of MK13, my pigmentation is lighter, my skin is brighter, and my wrinkles are gradually decreasing. I have seen its benefits and have started recommending it to relatives and friends.

Low Thomas

I was skeptical too. Smart Home had been promoting it for half a year before I placed an order. After one month, my face really became brighter and my smile lines faded. It is a very good product and worth recommending.

Improving steroid-damaged facial skin

Adeline Soon

Teacher, I have used MK13 for half a year. My steroid-damaged facial skin has recovered, my skin is brighter, and my pores are noticeably finer. MK13 is convenient to carry and can be used anytime. It really is wonderful.

Yoon Yoon

MK13 has improved my complexion so much. My wrinkles are decreasing, and my facial pores are smaller. My husband also noticed the changes and said I am glowing. Thank you, MK13.

Firming, lifting and brightening

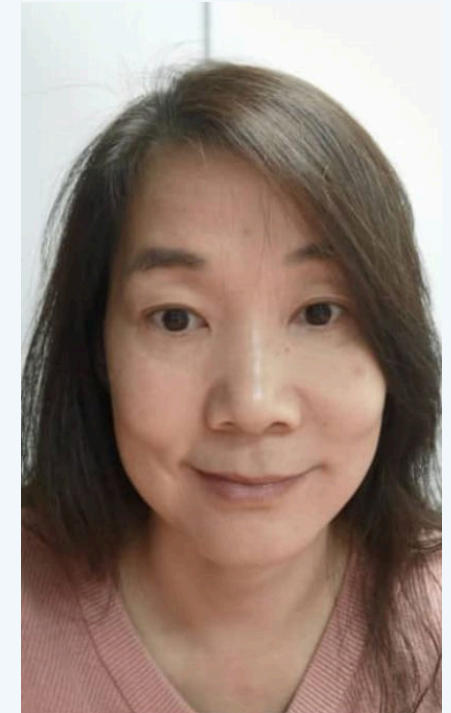

Bai Xue Xian Ling

Could you forward this to Teacher? I am so annoyed with you all! You got me using MK13, and now my skin is incredibly soft, smooth and fine. My blackheads have improved by 80%, and my pores are almost invisible. I am not exaggerating. My skin now looks as though I am wearing BB and CC cream. It is also fairer and brighter. I could be MK13's female spokesperson! Yes, I could.

**Lifting, brightening and fading spots;
from single to double eyelids**

Before

After 1 month

Firming, lifting and brightening

Hester Liu

Since using MK13, my skin is fairer and more even. The lines around my eyes are gone, my eyes look lifted, pigmentation has faded, my face is lifted, and my smile lines are less noticeable. That is why I keep following Third Aunt's livestreams.

Queenie Lau

Since using MK13, my skin glows and my wrinkles have noticeably decreased, especially on my forehead. My dog uses MK PET, and its coat is prettier and smoother, and its eyes look lively.

Firming, lifting and brightening

Huang Lianxiang

I do not want to look like an auntie anymore! I have used MK13 for more than two years. I definitely look much younger, prettier and more charming, regaining a woman's natural appeal. MK13 is wonderful.

Lin Meilü

I spent more than S\$10,000 on facial products without any change. After four bottles of MK13, my face is much brighter.

King Ayer Ong

Since using MK13, my facial skin has become soft and smooth. It is also very effective for oil splashes, cracked lips, itching and pimples. I always carry a bottle when I go out. MK really is excellent!

Linda Low

Cat, since I ordered the large MK13 package, an easy three-second spray makes me beautiful. My facial wrinkles have decreased a lot, and my complexion is fairer, brighter and moisturized. It also provides sun protection. One bottle is convenient for travel and does it all. MK13 is excellent and worth recommending.

Shella Liu

Spraying MK13 and then applying a sheet mask gives really good results, as though I have a new face. At first I was skeptical, but after trying it myself, my face really became much, much smoother.

Firming, lifting and brightening

Lye Lee Chien

My skin is so bright and smooth that water droplets slide right off.

Annie Tan

I only started using MK13 last week. My face is already brighter and fairer. MK13 is very good.

Jessie Wong

Every morning when I get up, I make sure to spray MK13. It feels very refreshing, and my whole face looks bright and clean. It really works well.

Che Che Liu

After around one week, I can see brightening and gradual lifting. I bought a second batch the other day.

Sanny Tan

MK13 really works well. After two weeks, the results are very obvious: my face has brightened up.

Caren Yee

I have finished one small bottle. I use it in place of toner. It saves time, and my face looks firmer and brighter.

Vinnie Chung

Good morning. During the pandemic, a friend invited me out for tea. When I took off my mask, she was surprised and asked what new product I had been using because my face was glowing. I was delighted and thought it must be thanks to MK13, so I shared it with her. It really is great. I also bought enough to last a year. Friends, do not hesitate; order soon!

Nicole Tan

MK13 has made my face fairer and radiant, even brighter than when I used skincare products before. Skincare products can sometimes be applied unevenly, but MK13 is convenient and I do not have to worry about uneven application.

Firming, lifting and brightening

Kimmy Chia

It works well, and I love it. It is convenient and saves time. My skin feels fresh and looks radiant, and I no longer have clogged pores.

Meimei Ling

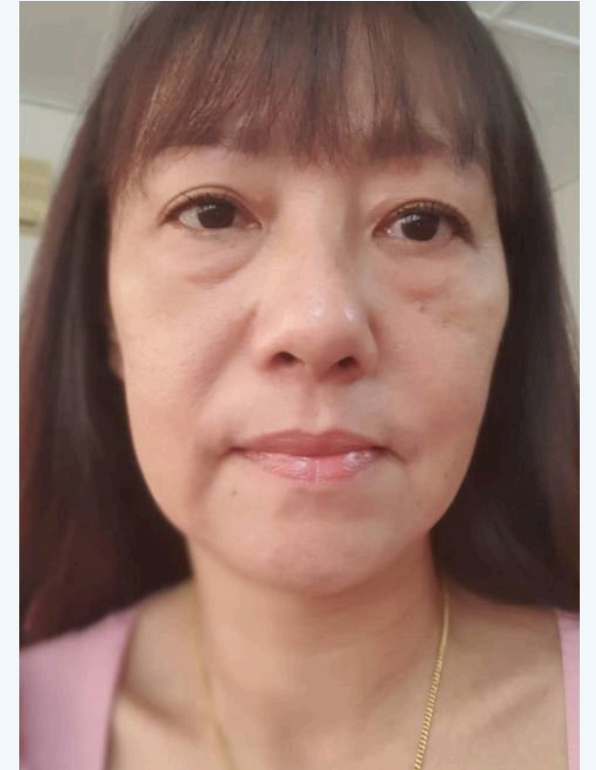

There is no denying that after using MK13, my skin really is fair and smooth.

Winnie Lim

I have been using MK13 since January. It saves money and makes my face brighter.

Before

After 7 days

Firming, lifting and brightening

Huang Lianxiang

I do not want to look like an auntie anymore! I have used MK13 for more than two years. I definitely look much younger, prettier and more charming, regaining a woman's natural appeal. MK13 is wonderful.

Ling Zhen

When I first bought it, I was skeptical: it was only water. My face started peeling when I first used it. I asked Teacher Winston, who told me to keep using it. The result really surprised me: my whole face became fairer, smoother and very radiant.

Huang Lianxiang

When I first saw this platform introduce MK13, I thought: Is it really that good? Can it do so much? It is only a bottle of water. I had never imagined coming across a seller like this! I thought the claims were deceptive and simply intended to earn money from people who want to look beautiful. Then I remembered MK20, which I had also bought to spray on my eyes. My eye bags had disappeared, my eyes were brighter, and I no longer needed glasses to look at my phone. So I thought: If I am fooled, it will only be once; I will trust them this time. I bought the large package to try, carried it with me and sprayed whenever I had time. It really was good. After using one bottle over half a month, my face was very smooth, my wrinkles had decreased and my eye bags were gone. Wow! A good product speaks for itself. I only knew it was true after experiencing it personally. With such a good product, how could I not tell the whole world? It must be shared widely and given our full support!

Firming, lifting and brightening

Ng Lin Lin • Singapore

My skin texture is much finer and softer, and my skin looks radiant.

Bai Xue Xian Ling

Could you forward this to Teacher? I am so annoyed with you all! You got me using MK13, and now my skin is incredibly soft, smooth and fine. My blackheads have improved by 80%, and my pores are almost invisible. I am not exaggerating. My skin now looks as though I am wearing BB and CC cream. It is also fairer and brighter. I could be MK13's female spokesperson! Yes, I could.

Firming, lifting and brightening

Lye Lee Chien

My skin is so bright and smooth that water droplets slide right off.

Sook Wei Lee

MK13 is excellent. My face is radiant, brighter and fairer. Very good!

Annie Tan

I only started using MK13 last week. My face is already brighter and fairer. MK13 is very good.

Jessie Wong

Every morning when I get up, I make sure to spray MK13. It feels very refreshing, and my whole face looks bright and clean. It really works well.

Kimmy Chia

It works well, and I love it. It is convenient and saves time. My skin feels fresh and looks radiant, and I no longer have clogged pores.

Sanny Tan

MK13 really works well. After two weeks, the results are very obvious: my face has brightened up.

A hydrating mist throughout the day

suemoxleybeauty1

I love MK13. It is a hydrating mist that I spray on my face ten times a day. It keeps your skin moisturized and helps with a variety of problems, including fine lines, pigmentation and enlarged pores.

I have used it for about a month, and my skin is much smoother. The fine lines and dryness have disappeared.

It is very easy to use, and you can use it throughout the day. You can even use it over makeup.

One bottle replaces nine

Carrie O Hui

I absolutely love it! The day when I no longer need to apply layer after layer of products has finally arrived. It really gives the same benefits as all the products I used before.

Mani Mani

MK13 is really convenient. One bottle does everything when you go out. It is especially quick at relieving facial sensitivity caused by polluted air.

Choo Lee

This is a product for lazy people: spray it and go out, then spray again while you are out and about. Convenient, and especially convenient for people of grandmother age.

Lilian Lee

I have used two sets. All I can say is that it is amazing. Most importantly, one bottle replaces all those bottles and jars. I am waiting for Chairman Yang's special offer.

Annie Liew

MK13 saves so much time for working people who are always rushing.

Loo Ding Bong

My wife used to take 45 minutes to get ready to go out. With this, she can easily be ready in three minutes. It also saves a lot of money on skincare products.

One bottle replaces nine

Wong Siow Wai

Every MK product is trustworthy and well worth using. I tried many products before without results. Since using MK products, many things have changed and improved, including problems with my skin, my face and various other issues. MK products can solve many problems. Thank you for promoting them and helping the public learn about the different products. I believe they will become recognized worldwide as good products.

Sook Wei Lee

Thank you, Teacher. I speak frankly: I absolutely love MK13.

Sook Wei Lee

I spray it from time to time. My whole face and neck feel fresh and refreshed, and I feel more energetic. My face is less oily and smoother. I mostly use only MK13 now. It is so convenient and works well. All my other skincare products are going to waste; I cannot be bothered to use a whole pile of them anymore. MK13 is truly miracle water.

Sook Wei Lee

I have stocked up on more than ten bottles of MK13 because I am afraid of running out.

Sun protection

Hannah How

It really works well. I have used MK13 ever since you first offered it. I do not even apply sunscreen when I go swimming anymore. Although I have not applied anything, my husband asks why my skin looks so radiant.

Chan Iris

MK13 is so powerful. The last time I went to the beach, my face became red and started peeling from the sun. I quickly sprayed MK13. Within three or four days, the peeling areas were visibly repairing very quickly, and my skin had clearly improved. I love it.

Mavis Tan

MK13 quickly improved my red, sunburned skin. Attending my child's sports day is no longer a problem. I used to keep making excuses not to go.

Lye Lee Chien

If you are going to a tropical rainforest, take MK13. It can address worries about tanning and sunburn.

Clarins Lee

A few days ago, I played ball outdoors for four hours in 32°C heat, and my entire face became bright red. Luckily I had MK13 with me and sprayed it several times. My friends were amazed by what they saw. It was unbelievable. I love MK products.

Sun protection

Siew Hoon Loo

I no longer apply sunscreen either. I just spray MK13 a few more times. It is very convenient.

Tan Soh Bee

Really, I did not use sunblock when I went to Port Dickson with my family during the Chinese New Year holiday. I simply sprayed MK13 many, many times, and my skin was still good.

Source product text • Selenium compound

A natural antioxidant that prevents free-radical damage to cells, combats aging and prevents skin cancer.

MK13 contains selenium compounds that promote skin repair, maintain healthy skin and prevent tanning, sunburn and skin allergies. Chemical sunscreens on the market generally work by absorbing, blocking or scattering ultraviolet rays. MK13 first helps promote the skin's own repair, enabling its cells to produce a protective layer.

Makeup-setting effect

Winnie Chan

I spray MK13 and MK20, and my makeup does not run, even though I keep spraying them throughout the day.

Sensitive skin

Before MK13

After 3 days

After 1 week

Lee Hui Kian

My younger daughter and my son both have sensitive skin. After using it, my daughter's face no longer becomes red, and my son's facial acne has improved with MK13. I had toothache and inflamed gums, and spraying it also relieved the pain. My skin is dry; MK13 moisturizes and brightens it, and fades pigmentation and fine lines. It is wonderful. A good product speaks for itself, but you must be patient and keep using it. My younger daughter recently went on a 14-day independent trip to Japan and took two bottles. Her face did not become dry, and when she came back, it was radiant and fair. She cannot put MK13 down. Thank you, Teacher, for the recommendation.

Sok Meng Chew

My face is extremely sensitive. The doctor said I could not use products containing certain ingredients, but products did not list their ingredients, so I was afraid to try anything people recommended. After using MK, my facial skin improved and became radiant. It used to be very dry; now it is smooth and well hydrated. It is great. After spraying MK20 on my eyes, my prescription strength also decreased.

Sensitive skin

Celest Tan

MK13 is really worth using. The facial sensitivity I had for years is gone, and my skin looks more beautiful and radiant.

Cora Cora

Since using MK13, my skin is no longer sensitive or red.

Sok Meng Chew

A few years ago, my facial skin was extremely sensitive. I started using it on Teacher's recommendation and have continued ever since. My skin is no longer sensitive; it is radiant, smooth and fairer. It is an excellent product.

Loo Loo

I love MK13! I am a lazy woman. I learned about it in 2023 and thought it sounded promising, so I tried it. It saves time: just spray, spray, spray. So convenient. After about half a year, my face was no longer sensitive and my complexion was radiant. Friends say I look much younger. I am so happy. Thank you to SHL and the teachers for sincerely recommending it.

NG Siew Ling

My skin was extremely sensitive. Since using MK13, it has completely improved, and the inflammation no longer recurs. That is why my students believe me now, and I have recommended it to them.

Sensitive skin

Siew Hoon Loo

My face previously had an allergic reaction: it was very itchy and peeling. MK13 helped it recover quickly. Two weeks ago, I ate the wrong food and had another reaction. I used MK13 immediately and recovered quickly again. This product is really good. I now use only MK13.

Lee Hui Kian

My child's sensitive skin and acne have improved a lot. I also sprayed it when I had a toothache, and it provided relief.

Jenn Lps

I received MK13 and MK20 yesterday and started using them immediately. My daughter's facial skin sensitivity subsided immediately after spraying MK13. Good, thank you.

Reaction to a skincare mask: severe redness and swelling of the lips, neck and cheeks

Before

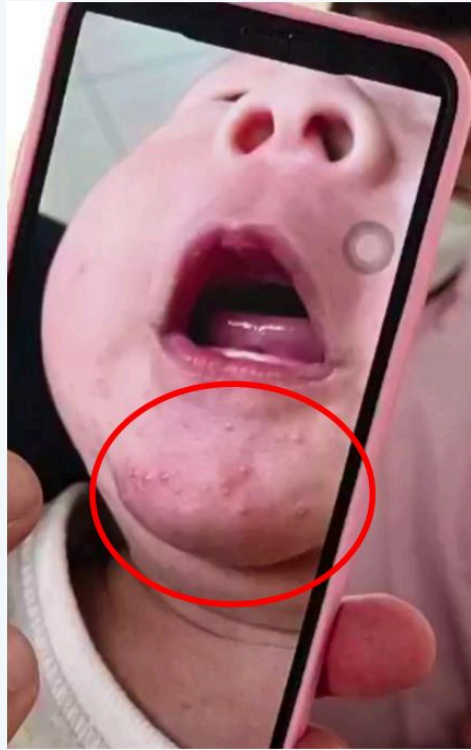

After 2 days

Sensitive skin

MK13 resolves facial sores in a 1½-month-old baby.

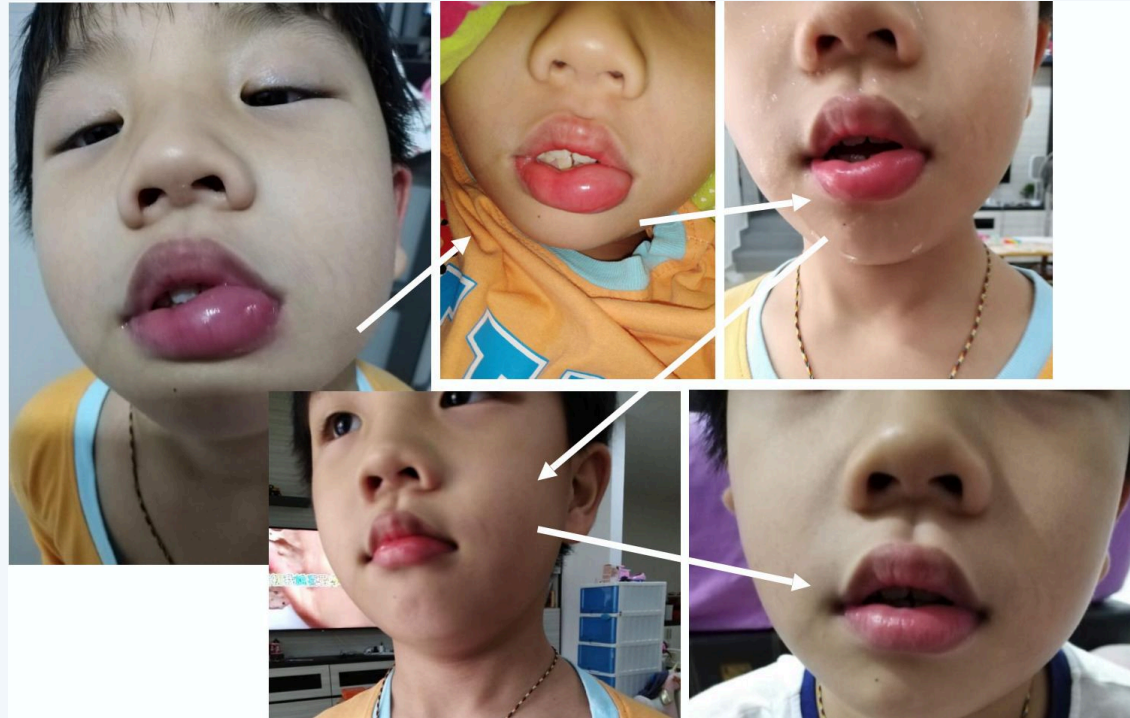

Kathy Tsen Lee Ling

I love MK13 very much. Meeting Teacher Winston really helped me improve my sensitive skin. My skin used to be extremely sensitive, red, swollen and itchy. I could not stop scratching my face; it was miserable. After discovering MK13, I used four large bottles within one month. My facial sensitivity improved: no itching or redness, and my face is very hydrated. I am so happy. MK13 is my miracle water. I cannot do without it. Love you, Teacher.

Adeline Soon

I have sensitive, steroid-damaged facial skin. At first I did not really believe in it because I had tried many brands without improvement. Teacher kept encouraging me to continue using it, and now it really is much better. Thank you, Teacher and MK.

Food allergy

Source photo caption

This was the second episode of a food allergy. Medication was used the previous time. This time, only MK13 was used, and it was better the next day.

Sensitive skin

Ling Yang

MK products are all my favorites.

The first time I used the fourth-generation MK13 rejuvenating mist, I was deeply impressed by how gentle and effective it was. It restored my sensitive skin's radiance from within, as though rekindling youthful energy. What surprised me most was that one simple bottle offered multiple kinds of care. MK13 is the only bottle I need for my daily moisturizing, brightening and anti-aging routine, saving time and giving me peace of mind.

Thank you, MK13, and especially Teacher Yang and Fuzhou Mei, for helping me show my outer beauty and regain my inner confidence and composure. Thank you again, MK13, for letting me truly experience that “looking young can actually be simple.”

Sensitive skin

Brenda Chin

My face really is extremely sensitive. I no longer wanted to waste money on these products; I honestly felt they were all a waste. But Teacher Sunday said, "If you have sensitive skin, go ahead and use it. It can even improve your sensitivity, and your face will become healthier and more beautiful."

I have now used MK13 for more than a year. I no longer get sudden sensitivity, my face is smoother, and the many freckles I had have decreased. I have not had laser treatment! I simply spray it and apply masks. I trust Teacher Sunday; I believe she does not recommend products carelessly. You really can try MK13.

Skin rash

Before

After 2 weeks

The rash did not improve after seeing a doctor and receiving two injections. After using MK13, recovery took two weeks.

Chat with Cat Cat

Other participant: Sensitive skin? Or something else?

Cat Cat: All these rashes make me anxious. After two weeks of using MK13, I recovered. Thank you so much. It is really amazing. The doctor could not cure me; only MK13 cured me.

Other participant: Dr. Shan asks you to put MK13 in the fridge, then spray it. Good.

Cat Cat: Sure, noted. I went for two injections, but they could not cure me. Only MK13 could cure me.

Improving dry skin

Chen Meilan

Teacher, my husband's face was very dry, with little red bumps and peeling. He saw many doctors without getting better. Since using MK13, his skin has improved a lot.

Siew Hoon Loo

It works very well. My facial skin was so dry that it peeled. Since using MK13, dryness is no longer a problem.

Yoke Thai Ho

It works well. After two weeks, my face is well hydrated and no longer so dry.

white0802why • @tanfei

Thank you, boss, for recommending this good find. It is really hydrating. In cold, windy winter weather, I carry it with me and keep spraying my face. Right now, the skin all over my body is so dry that it is peeling, except on my face.

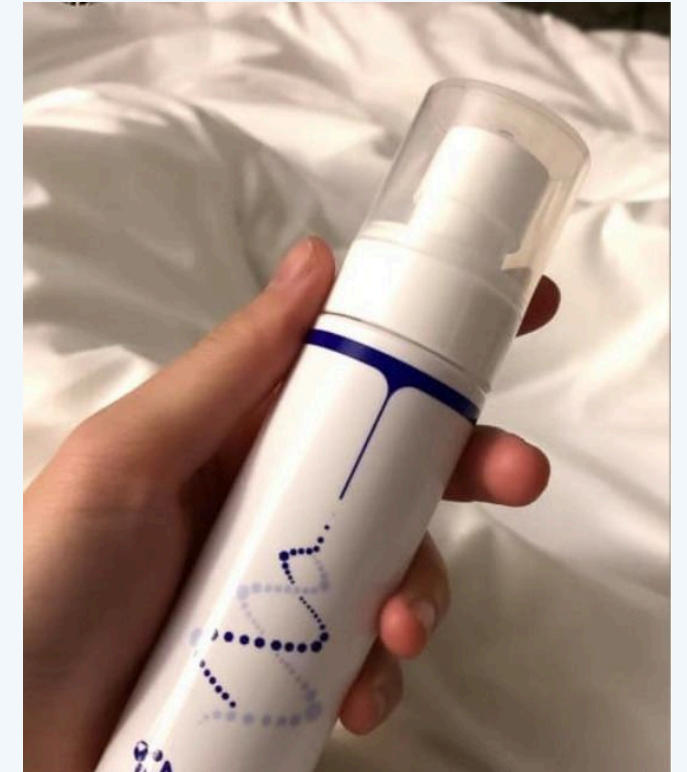

Photo: white0802why

Improving dry skin

Chang Luna

I have dry skin. Whenever I am exposed to wind or air conditioning, it becomes so dry that it itches. After spraying MK13, my face feels comfortable and does not become dry.

Lai Soon Chong

MK products are convenient to use anytime, anywhere. MK13 effectively soothes dryness.

Kat Kit

When I traveled overseas, my face became so dry that it peeled. I happened to have MK13 in my bag, so I sprayed it immediately. By the time I returned to the hotel, it had stopped peeling. Now I keep spraying MK13 whenever I am in the sun.

Low Pearline

Beautiful Sunday, I have used MK13 for a while. Before using it, my face and the area around my eyes were very dry because I work long hours in an air-conditioned room. I spray MK13 every day, and the fine lines on my face and around my eyes have gradually improved. Thank you, Teacher Winston, for introducing it.

Tony Yap Kok Leong

Men's skin tends to be dry and lack moisture. The hydration alone already makes it worth the money.

Blackheads and comedones

Angel Lee

Teacher, I just had a facial. The beautician said my pores are finer and my skin is much better. Extracting comedones takes much less time, so I no longer have to endure the pain. MK13 really works. Great!

Wu Ning'er

I tried many skincare products before without results. MK13 is wonderful. After one week, my blackheads, comedones and oily skin have improved a lot.

Alicia Chong KY

I originally had enlarged pores and many blackheads. After MK13, my pores are smaller and I have fewer blackheads. My child used MK20 and told me the whiteboard looked clearer and their eyes no longer felt strained.

Sook Wei Lee

Do you know? Before MK13, just a little squeeze on my nose would bring out a frightening amount of material from clogged pores. After using MK13 for a while, nothing comes out when I press my nose. Wow! MK13 is incredibly effective. I really cannot stand comedones.

Siew Hoon Loo

Since using MK13, I have noticed fewer blackheads and comedones on my nose. Previously, even going for facials did not solve the problem, and the extractions were very painful every time.

Oily skin and milia

Lilee Lee

I have used it for about two weeks. I was a little skeptical at first because it seemed like ordinary water. After three days, my skin really felt soft and velvety; I did not even need foundation for work. The milia on my face, caused by prolonged mask wearing and foundation use, also improved. I use it every day and have temporarily stopped my other skincare. P.S. My skin felt rather dry during the first week, possibly because it is hypersensitive.

Henna Kung Bee Har

I have used it for more than a month. My face is very oily, and it really controls the oil. It feels very comfortable. I do not want to use other skincare anymore.

Vinnie Chung

I used to have small milia around my eyes and was planning laser treatment. After five months of MK13, the milia are gone. I am happier than if I had won the lottery.

Katherine Pk Thian

MK13 helped the milia fall off and made my facial skin brighter. Since using MK20, I no longer need reading glasses. These products work well.

Oily skin and milia

Star Neoh

After using MK13, my face stopped being oily, my acne disappeared, and my face feels lifted and firm. My wrinkles are gone, and my face is much fairer, brighter and prettier. I feel confident and happy every day. A must-buy for everyone. Most importantly, it is very convenient.

Alice NG

I did not believe it at first. After listening to David, I tried spraying it despite my doubts. My face really became radiant, and even my milia decreased. Having one bottle replace everything is already wonderful. No more bottles and jars: just spray eight times and it is done.

Katherine Pk Thian

After using MK13, the milia on my face fell off. It hydrates and moisturizes very well. It is very good.

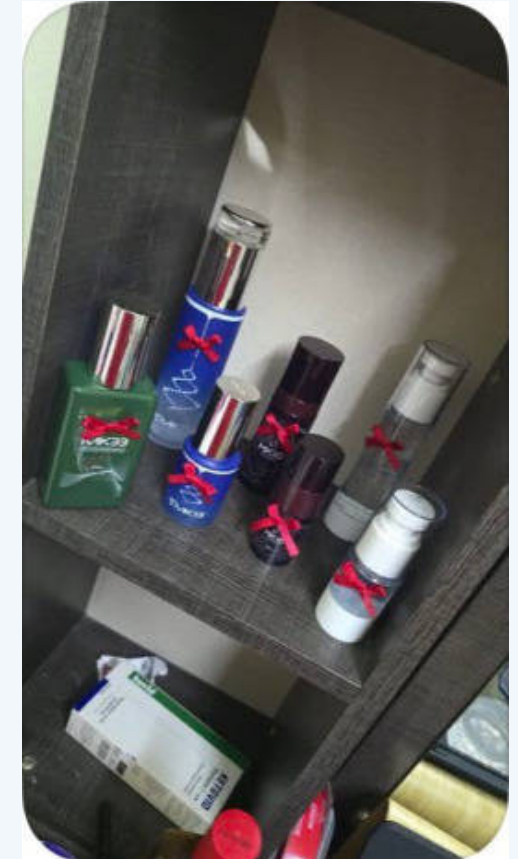

Improving enlarged pores

Wong Angel

After almost one bottle of MK13, many comedones came out on my forehead. I removed them with tweezers and continued using MK13. Even my pores became smaller.

Happy Xin

Among MK products, MK13, MK20 and MK10 are my favorites. My strongest recommendation is MK13. Just spraying it on your face can really make you more beautiful, and your pores really do get smaller. You do not need lots of other skincare products at all. This is the display cabinet from my wedding the day before yesterday; MK products simply had to be included.

Eye bags and dark circles

Fong May Wong

MK13 works well. My eye bags are gone.

Winnie Chen

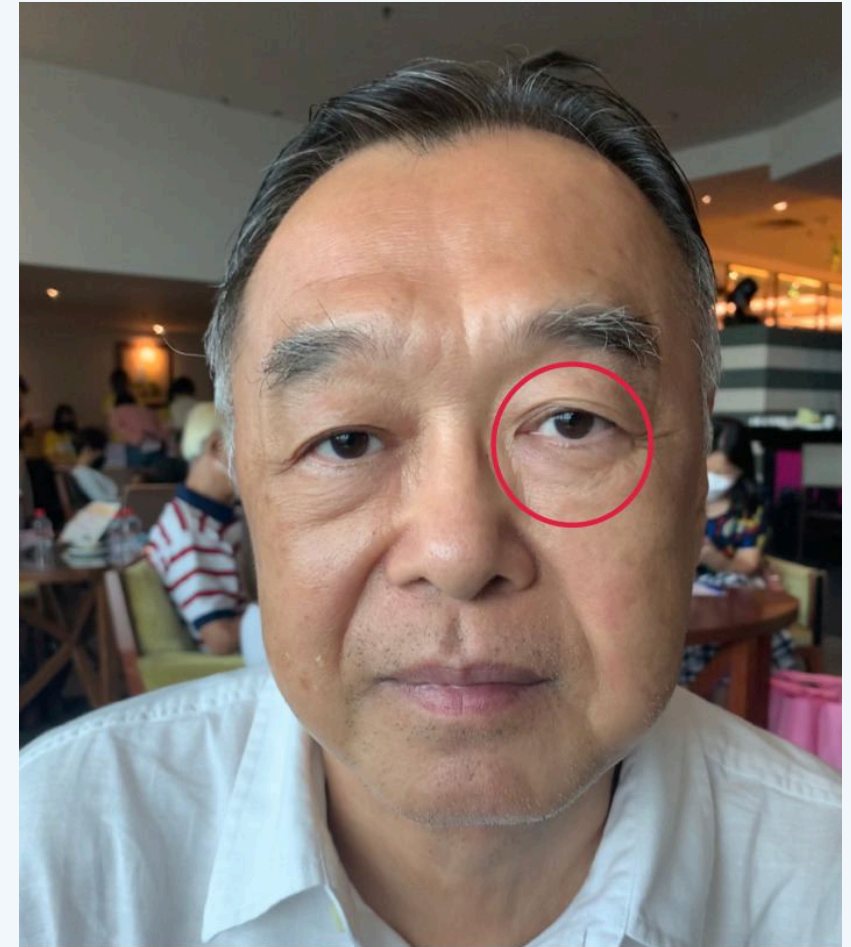

Is there still an MK13 promotion today? I want to order again. After two weeks, my dark circles have become much lighter.

Vinnie Chung

After more than two months, my skin is much brighter and my eye bags have disappeared. Excellent!

Liok Bee Chew

My eye bags have disappeared too.

Throat discomfort and mouth ulcers

Ooi Hooi Chun

MK13 is not only for the face; it can be used all over the body. A mouth ulcer healed after just three applications, and it is especially good at relieving itching. It works so well.

Tracy Bee Lian

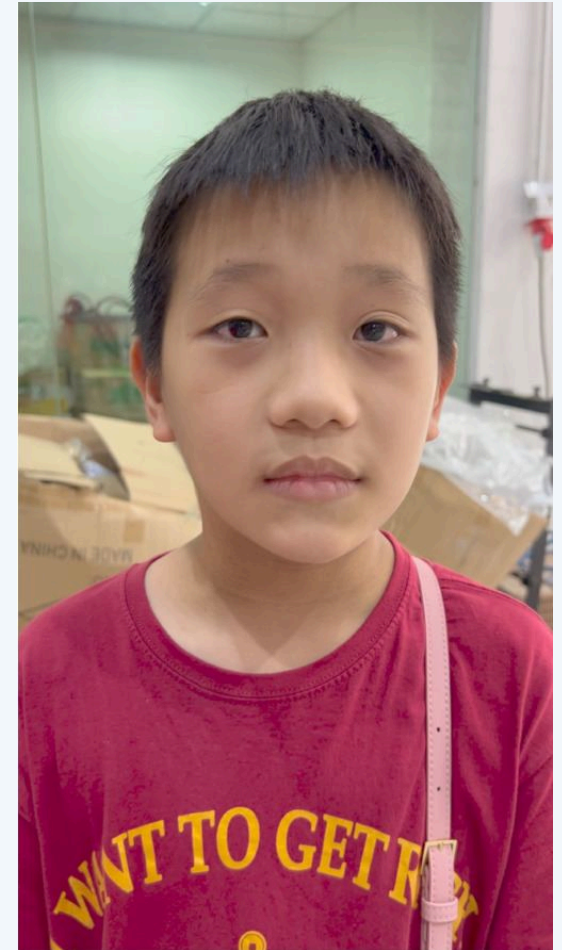

It is very helpful for ulcers. One bottle really does it all. The product speaks for itself.

Oii Shu Ting

It is true. The other day, my child had a mouth ulcer. I used MK, and it really subsided by that evening.

Yvonne Lim

The other day, my son accidentally bit the inside of his lip while eating and it bled. I sprayed MK13 for him. The next day, it no longer hurt, and the wound had not worsened. In the past, a wound like that would ulcerate, causing pain and making it difficult for him to eat.

Throat discomfort and mouth ulcers

Thang Lim

I ate a lot of melon seeds these past few days and became “heaty.” My tongue hurt and developed little bumps. I saw MK13 and tried spraying it. My tongue stopped hurting, and the ulcer did not develop. MK13 is wonderful.

The other day, my son accidentally bit the inside of his lip while eating and it bled. I sprayed MK13 for him. The next day, it no longer hurt, and the wound had not worsened. In the past, a wound like that would ulcerate, causing pain and making it difficult for him to eat.

Jenny Koo

One day, my mother’s gums became inflamed, red and swollen. She tried MK13 to see whether it would help. A few sprays worked immediately and reduced the swelling. It even saved the cost of a trip to the dentist. MK13 is excellent.

Cheah Woon Pei

I do not know how to describe MK13. Last week I had my fourth COVID vaccination. My throat became extremely dry, and I coughed badly whether or not I was speaking. I saw a doctor and took medication for three days without improvement, and it affected my work. That evening, I remembered Teacher saying it could be sprayed on ulcers, so I tried it. I sprayed twice every hour until bedtime. I found that I did not cough all night, and my dry throat improved a lot. It still felt a little prickly, but I was no longer coughing. Thank you, Teacher, for explaining so clearly; otherwise, I would not have had the courage to spray it into my mouth.

Improving scalp problems

MOrIs Chia

My scalp used to be very sensitive. When it itched, I scratched it. I went to a doctor, who examined it, said it was a fungal infection and gave me an ointment, but it did not work. Last December, I watched Teacher's livestream and bought MK13. I originally bought it for my face, but out of curiosity I tried spraying it on my scalp. After three days, wow, it really worked. My scalp has now completely recovered.

Chan Adery

My scalp used to be oily and itchy. I tried many hair tonics and scalp treatment sprays without success, and changed shampoos more than ten times. Now I only need to spray MK13, and it does not itch at all. I love it.

Wounds and inflammation

Cheah Siew Chan

My child's face was bitten by a "charlie ant." Blisters developed and discharged fluid. After a few days of MK13, the swelling gradually subsided. The blistered areas slowly dried and healed, without even leaving scars.

Mee Har

I also spray it on insect bites on my legs. It helps.

Lye Lee Chien

Yes. The other day, my husband accidentally knocked his foot, leaving it bruised and swollen. I sprayed MK13 on the affected area, and the swelling started to go down.

Huang Lianxiang

My face was injured in an accident. At the hospital, the doctor did not clean my wounds. Later, a friend brought MK13 for me to use. During my three-day hospital stay, I kept spraying it. In less than a week, the wounds all over my face healed quickly.

Apek Ching KM

Now I do not spray just eight times; I spray ten to twelve times. When I previously went for ear cleaning, the practitioner said my ear canal was red and slightly inflamed, probably because I often picked my ears with my fingers. I tried spraying MK13. When I went again last week, the practitioner said it was much better and no longer inflamed. It did feel quite uncomfortable around the ear when I first sprayed it, so I had to gradually adjust the distance and avoid spraying too close.

Wounds and inflammation

Lye Lee Chien

Teacher, I recommended MK13 to a friend. During prayers to the Heavenly God, she thought the incense was not lit and foolishly touched a burning stick, burning her hand. She quickly sprayed MK13 on her finger, and after a while it stopped hurting.

Tan Soh Bee

My son cut himself during a trip and was bleeding. I sprayed MK13 on the wound to clean it because I had nothing else to use. His wound healed quickly, and the bleeding stopped quickly.

Dorren Mak

My friend had a car accident. After a week, the wound was still wet and had not dried. I sprayed MK13 on it for my friend. Three days later, it had dried and was much less painful.

Liok Bee Chew

Yesterday, hot oil splashed on me. I immediately sprayed MK13, and today it is better with no scar left behind. I put it in the fridge; spraying it cold feels very comfortable.

Wounds and inflammation

Wong Lee Pheng

When I burn my hand while cooking and it turns red, I spray it too. The redness and swelling subside quickly, and it does not hurt.

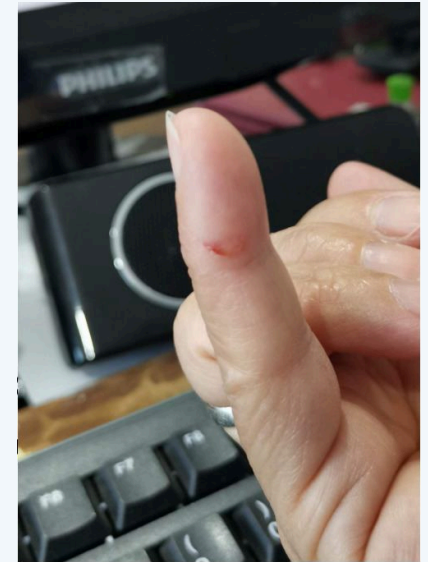

King Ayer Ong

MK13 makes my face smooth and soft and also relieves itching. It is especially helpful after oil splashes: spraying it helps the skin recover without blisters. MK is really good, worth recommending and excellent.

Hui Fen Yang

A worker developed a skin condition resembling ringworm on the back of the neck. Seeing a doctor, taking medication and applying medicine bought at a pharmacy did not improve it. We tried spraying MK13. It improved on the very first day and kept getting better every day. Unfortunately, we did not think to take photos.

Wounds and inflammation

Teck Mee

Hello everyone. I cut my finger while washing a glass last night.

This is after spraying MK13 for the second time; the bleeding has stopped.

And this photo was just taken now. There is no remaining blood at all. MK13 is wonderful!

Facial wounds and scars

Facial abrasions from cycling

Dressed at the hospital

Day 2 of use

After 3 days of use

Source product text

MK13 facial mist can help facial wounds and scars repair faster. When using it, remember to spray lightly onto the wound until it is just slightly moist, not too wet. Use small amounts frequently. Do not touch the wound with your hands. Keep your hands as clean as possible, change bed linen frequently, and so on.

Jellyfish sting

Stung by a jellyfish in the morning

Marks remained in the afternoon

Began spraying MK13 frequently in the afternoon; better by evening

Non-toxic, natural, with no side effects

Katherine Pk Thian

Fans can order with confidence. MK13 is non-toxic and contains no chemicals. The younger you are when you use it, the faster you will see results.

Vanvan Lam

MK13 contains no chemical additives, preservatives or fragrance. It is a great spray used by many people, and it really makes the skin look more beautiful.

Sandy Leng

MK13 water is miracle water. It is very good for all skin types and makes you look beautiful and young.

Wong Nyon Jin

That is how you all “fooled” me! I spray it as soon as I wake up. I cannot do without MK products.
