Bald patches and hair regrowth

Guo Simei

“My husband was going bald. After spraying MK33, a little hair finally appeared in the middle. He is finally on his way back to his best!”

Anny Pang

“I used to lose hair constantly, and there was a bald patch on the left that you could see when I lifted my hair. Since using MK33, I am not losing nearly as much hair. Hair has also grown in the bald area, so I am no longer afraid of people seeing it.”

Tony Yap Kok Leong

“MK33 really works; I have used it myself. I went about ten days without shaving my head - a shaved head is my usual look. Even when the hair grows, I still shave it off, but I can confirm that it works for me. My hair follicles used to be severely blocked, which is why I chose the shaved-head look years ago. This is good news for anyone with serious hair loss.”

Hair shedding

Joey Ng

“I bought this because my hair is very fine and soft and falls out easily. After using MK33 for a month, lots and lots of baby hairs have grown.”

Guo Simei

“I have used MK33, and it really works. I saw results within three months. My hair is less oily, and I am no longer constantly losing so much hair.”

Fong Shirley

“I gave it to my daughter. Her long hair used to fall out a lot, and no hair tonic helped. MK33 improved this, and she is not losing as much hair. She is still using it. I am also waiting for the hair tonic I bought in Taiwan last time and plan to use them together.”

Lee Hui Kian

“Both my daughters had ongoing hair loss and dandruff, and I did not know what was causing it. After I sprayed MK33 for them for a month, both problems improved. Thank you, Teacher, for the good recommendation.”

Hair shedding

Siew Hoon Loo

“My hair loss was severe. After brushing, there would be a pile of hair on the floor, and my hair also had an unpleasant smell. After using MK33, both the hair loss and the odour improved. Thank you for developing such a good product.”

Theng Liew

“I had severe hair loss after giving birth. Since discovering MK33, the shedding has noticeably decreased, and my hair is thicker now. I am continuing to use it. It is a very good product.”

Wai Man Pun

“MK33 - I spray it on before combing my hair, and I can clearly feel that my hair is thicker. After a week, only a dozen or so hairs fell out when I washed it. Great!”

Oil control

Lee Hui Kian

“Both my daughters’ hair became oily very easily, perhaps because of too much work stress. Their scalps were itchy, with dandruff and red spots. After they used MK33 for a while, there really was an improvement. Thank you, Teacher, for introducing something so good. I am grateful.”

CF Ng

“My hair used to get oily easily. After finishing one bottle, it was no longer greasy, and many fine new hairs had even appeared. Now, when I touch it, I can feel all the little hairs that have grown.”

Lily Hoe

“After using MK33, my hair is no longer oily. I can now wash it every other day.”

Zhi Ying Kong

“I really had these problems: oily, itchy hair and constant hair loss. It was very frustrating. I used to go for hair treatments, which were expensive. After using MK33 for a while, I found that my hair follicles were healthy again. Thank you, MK33.”

Hair growth

Ivy Ai Lee Lee

“I spray MK33 every morning when I get up and after every shower. Since using it, I lose less hair, lots of baby hairs have grown, and I no longer have dandruff. It really is a great product. Thank you, Teacher Yang and Fuzhou Mei, for sharing it so that we can use such a wonderful product.”

Chi Dexian

“After using MK33, lots of baby hairs have grown. My hair is less oily, and I also have less dandruff. It is a great product.”

Li Zuo'an

“After using MK33, I have grown lots of baby hairs and black hair, and I am losing less hair. It is a great product - highly recommended!”

Lily Yong

“I have been using it. The hair on top of my head had become so thin that the parting was very wide and looked bad. After two bottles of MK33, lots of little hairs have grown. I am so happy!”

Smooth hair and dandruff

SMOOTHER, SOFTER HAIR

Customer comment - name not visible

“After using MK33 hair care products for a while, I was pleasantly surprised! My hair is noticeably smoother, softer and shinier, and the frizz and split ends have improved a lot. The scent is fresh and natural without being overpowering. Every time I use it, my hair feels as though I have just had a treatment. The ingredients are gentle and non-irritating, and even my scalp feels more comfortable. It is excellent value for money. I have already recommended it to friends and will definitely buy it again!”

DANDRUFF

MC Chew Elaine

“Discovering MK33 has helped me a lot. My scalp was badly damaged after colouring my hair, and I had dandruff all over my head. After two weeks of scalp care, my scalp recovered and felt better.”

Scalp sensitivity and itching

SCALP SENSITIVITY

Maggie KC

“My scalp is quite sensitive, but I have had no problems at all using MK33. It is gentle and non-irritating. After washing, my hair has a natural shine, and it is easier to style!”

ITCHING

Tay Lily

“My scalp used to itch a lot, and I was also losing a lot of hair. Since using MK33, things have improved greatly.”

Murray Liu

“It has been very humid with the recent change of season, and my scalp has been very itchy. Spraying MK33 helps relieve the itching.”

Hair colouring and damage

Joanna Yun

“I love MK33. I used to love perming, bleaching and colouring my hair, which left it damaged and prone to breakage. No product could repair it. Luckily, I found MK33, and using the spray helped me have healthy hair again.”
