我食咗 15 年嘅糖尿藥我都驚肝同個腎臟負荷唔到，我噴咗 mk8，之後明顯尿係有乜味同埋有乜泡，剛剛做完 body check 個腎指數 ok 完全冇問題。

因有食 supplements，怕腎臟有負擔，每次去 toilet 之後，都噴 MK8，幾日後，尿液明顯清晰微金黃，冇泡，冇尿味

我用 MK8 的改变是锻炼 5 分钟就开始排汗了... 比起以前需要 15 分钟... 给自己身体功能变好的机会 🙌

我用的是mk8, 我是从去年3月开始用, 还没用之前我的尿道感染平均每两个月就要看医生, 这一年里改善了很多, 一开始还有感染, 最近的半年都没有再感染了。谢谢

用了 MK8 也有一段时间，改善了腰酸背痛的问题，每天只用了 3 次，所以我会继续的使用 MK8。

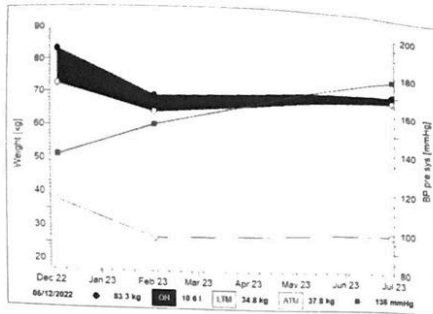

莫大開心的事！
這是不可能的事！
原本一星期洗腎三次，在醫生
同意下，改為一星期二次。

I am a computer software engineer. I have been working under high pressure from day to night. Before using the kidney care water, my kidney function index had dropped to 2, I couldn't urinate properly, I couldn't sweat, and my skin had been dry and flaking off.

After using the kidney-care water for two weeks, I felt my coordination and strength gradually recovered, and I could go out to play basketball with my children. At one time while spraying the kidney care water, I felt that my kidneys would have bursts of pain, but the pain would gradually eased over time.

At the moment, my goal is to keep my kidney function up and I don't need to wash my kidneys in the future!

我是一名家庭主妇，我自身是还不是一名洗肾患者。虽然医生看了我的身体检查报告说我必须洗肾，但是我无法接受这个事实。直到我遇见了MK8肾脏护理水。

在使用MK8 肾脏护理水之前，我的肾脏功能指数已经是10，无法正常排尿、流汗，脚水肿的走不到路。

后来使用了MK8 肾脏护理水3个月加上努力戒口，我的肾脏功能竟然从10升上至17，这医生到现在也无法给我一个解释。

目前，我的孩子希望我能够在两年内让身体完全康复！

I'm a housewife, and I'm not a dialysis patient. Although the doctor suggest I must dialysis immediately after checking my body report, but I still could not accept this fact, until I met kidney care water.

Before using kidney care water, my kidney function index was 10, unable to urinate normally, sweat, sometimes feet edema and can't walk.

After three months of using the kidney care water and restriction on food eating, my kidney function increased from 10 to 17, and the doctor couldn't believe my improvement.

At this moment, my children want me to be fully recovered in two years!

I am a businessman and my main job is do trading in India and Malaysia. When I was diagnosed with stage 4 kidney disease, my doctor told me to be mentally prepared to dialysis. My health has deteriorated since then, with difficulty urinating and poor reflexes.

Thanks to this kidney care water, when I first started spraying, I felt a little pain in the kidney area and felt a “zap” to the body. After 2 months, I felt my body strength gradually recover, I also tried to go out for oversea business!

At this moment, my goal is to keep my kidney function up and I don't need to dialysis in the future!

我是一名商人，主要工作是往返印度马来西亚进行交易。在我被检查出使肾病第四期的时候，医生告知我要有心理准备进行洗肾。我的身体状况在那之后就每况愈下了，排尿会辛苦，反应能力也变差。

后来感谢MK8 肾脏护理水的出现，我刚开始喷的时候，会感觉肾脏部位有点疼，并且好像被电到身体一样。**2个月后，我感觉到身体力气慢慢恢复，我也尝试了搭飞机外出公干！**

我是一名已换过肾的病者，但很不幸的在9年之后，我的身体就开始排斥我的新肾脏。在那之后，我的身体状况就靠洗肾过日子，无法工作。

在使用MK8肾脏护理水之前，我的肾脏功能指数已掉至10，无法正常排尿、流汗，并且身上一直有毒素沉淀的黑点。

后来使用了肾脏护理水1个星期，我感觉到右肾开始有酸痛的感觉，并且一直很想休息。

I am a patient who had a kidney transplant, but unfortunately after nine years, my body began to reject my new kidney. After that, I need to do dialysis and was too sick to work.

Before using the kidney care water, my kidney function index dropped to 10, I couldn't urinate properly, I couldn't sweat, and I had black spots of toxins on the body all the time.

Later, after using the kidney care water for a week, I felt that my right kidney began to feel sore and wanted to rest all the time.

I am 73 years old. By chance, my Chinese medicine doctor introduced me to this kidney care water. My kidney function index was 4, and the doctor told me I had to dialysis, but I insisted not to do so. I don't have much strength in my both hands and feet.

In the first two weeks, I did not expect that my body would heal so quickly. I was very tired and wanted to sleep for two weeks. The most amazing thing is that I can walk without crutches, and my feet are getting stronger. My spirit is getting better and the black spots on my body are disappearing.

我今年73岁，在一个机缘巧合之下，我的中医介绍我关于这个肾脏护理水。我的肾脏功能指数为4，医生告知我必须洗肾，但是我坚持不要。我的手脚没有太多的力气，而且精神不佳。

我刚开始喷的2个星期，我没想到我的身体愈合反应竟然那么快，我在这两个星期内，一直很累，并且很想睡觉休息。最神奇的是，我竟然可以不用拐杖走路，脚逐渐有力气。

我的精神慢慢变好，身上的黑点也变浅很多。
